Lorraine and Johnny acted like two canaries playing Scrabble with the cat, but Detweiler was so normal and unconcerned they soon settled down. Conversation was tense and ragged at first until Lorraine got off on her "career" and kept us entertained and laughing. She had known a lot of famous people and was a fountain of anecdotes, most of them funny and libelous. Detweiler proved quickly to be the best player, but Johnny, to my surprise, was no slouch. Lorraine played dismally but she didn't seem to mind...feces came out wrapped in cellophane. He shrugged his eyebrows again. "Maurice picked him up. When he reached the apron of the second stage, he strode across it and began ascending the second series of steps. We kept right on his heels. It was at this point that I noticed he was mumbling something under his breath. I listened hard, but I couldn't make out what it was...inevitable. A matter, merely, of making the effort and reaping the reward..I called David Fowler: "Yes, Andy had a portable typewriter, but he hadn't mentioned being a writer." "Oh, yes." Nolan had shrugged, too, and dismissed her from his mind.

Time itself was frozen as he stared down at the crushed and pulpy thing sprawled shapelessly beside the rocker, its sightless eyes bulging from the swollen purple face..telling her what the next had to be about. This machine has dials and little windows with numbers in them, and switches and pushbuttons, most of which you don't understand, but you know they are for special purposes and don't matter. The main control is a metal rod, right in front of you, with a gray plastic knob on the top. The knob is dull from years of handling; it feels warm and a little greasy in your hand. The console has a funny electric smell, but the big screen, taller than you are, is silent and dark. You can feel your heart beating against your breastbone. You grip the knob harder, push it forward just a little. The screen lights, and you are drifting across the next room as if on huge silent wheels, chairs and end tables turning into reddish silhouettes that shrink, twist and disappear as you pass through them, and for a moment you feel dizzy because when you notice the red numbers jumping in the console to your left, it is as if the whole house were passing massively and vertiginously through itself; then you are floating out the window with the same slow and steady motion, on across the sunlit pasture where two saddle horses stand with their heads up, sniffing the wind; then a stubbled field, dropping away; and now, below you, the co-op road shines like a silver-gray stream. You press the knob down to get closer, and drop with a giddy swoop; now you are rushing along the road, overtaking and passing a yellow truck, turning the knob to steer. At first you blunder into the dark trees on either side, and once the earth surges up over you in a chaos of writhing red shapes, but now you are learning, and you soar down past the crossroads, up the farther hill, and now, now you are on the big road, flying eastward, passing all the cars, rushing toward the great world where you long to be..Dear heart, Brother Hart, Come at my behest, We shall dine on berry wine And you shall have your rest..Dramatization is another. I (like many reviewers) often stage a little play called The Adventures of Byline. Byline (or "1") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that I?the real, historical personage?actually did or will or wish to rewrite story X, or that I expect its real, historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory..Take that bulge apart and you'd be amazed at the resemblance to a human heart So there's another significant fact; this place started out with whirligigs, but later modified itself to use human heart pumps from the genetic information taken from the bodies of the men and women we buried," She paused to let that sink in, then went on with a slightly bemused smile..He sat for a moment then solemnly held out his hand.
